

FLEXIBLE FUEL VEHICLES

In general, make sure your vehicle can run on E85 before using the fuel.

- ✓ The window stickers of certain vehicles indicate that it is a flexible-fuel vehicle that can run on E85.
- ✓ Look for the "green leaf FFV" emblem on the side of the Ford vehicles behind the front wheel wells.
- ✓ The fuel door may also make such an indication.
- ✓ The owner's manual under "Fuel" may also indicate fuel type usage.
- ✓ You can also check the vehicles VIN characters. The VIN (17 numbers or letters) can be found on top of the dashboard by the driver's side by looking through the windshield from outside the vehicle.
